

RAG Test Document

This is a sample PDF for testing a Retrieval Augmented Generation project.

Artificial Intelligence:

AI is a field of computer science that focuses on creating systems that can perform tasks that normally require human intelligence.

Machine Learning:

Machine learning allows computers to learn patterns from data and make predictions without being explicitly programmed.

Deep Learning:

Deep learning uses neural networks with multiple layers to process complex information such as images, text, and audio.

This document can be uploaded into a RAG chatbot to test PDF loading, chunking, embeddings, and retrieval.
